Severe Weather Details

This Afternoon Through This Evening

What

- Thunderstorms are expected to develop over lower Michigan this afternoon in advance of an approaching cold front. The thunderstorm activity may be slow to exit far southeastern Michigan during the evening hours.
- **Greatest Threat:** Damaging Winds and Localized Flooding
- **Lesser Threat:** Large Hail
- **Minimal Threat:** Tornado

When

- Severe Weather is possible between 2 pm EDT and 10 pm EDT.

Where

- All of southeastern Lower Michigan

Forecast Uncertainty

- Storms may remain below severe limits due to poor storm organization.
